

HIGHLAND TECHNOLOGY

Statement of Volatility

The following comprises the volatile and non-volatile memories on the T344 4-channel compact 32 MHz arbitrary waveform generator and T346 4-channel compact 32 MHz arbitrary waveform generator w/ complex modulation.

Volatile

SRAM	2 kB	Processor memory
SRAM	64 kB	Waveform memory

Non-Volatile

EPROM	512 kB	Firmware. Not field writable.
EEPROM	1 kB	Factory calibration. Password protected from user access
